

DETAILS OF BUSINESS

Indo Farm Equipment Limited is a distinguished ISO-certified crane and tractor manufacturing company situated in Baddi, Himachal Pradesh. The commencement of its manufacturing operations dates back to the year 2000, initiated through a technical collaboration with Ursus (Poland). Now, Indo Farm is a leading manufacturer of world-class Agriculture Tractors, Cranes, and various other agricultural Implements.

The company's state-of-the-art manufacturing facility spans across an impressive 34 acres, dedicated to crafting [farming tractor](#) models ranging from 20 HP to 110 HP, featuring numerous variants to cater to diverse needs. With an installed capacity of 18,000 tractors, 2,400 cranes, and 20,000 engines per annum, Indo Farm is committed to delivering excellence.

The company's advanced foundry, equipped with induction furnaces, not only ensures superior quality but also guarantees uninterrupted supplies and make [India powerful tractors](#) and cranes. In a strategic move in 2008, Indo Farm diversified its portfolio to include the manufacturing and marketing of Pick-N-Carry cranes with capacities ranging from 9 tons to 30 tons. This expansion showcases Indo Farm's commitment to innovation and meeting the evolving needs of the market.

A message from the Chairman

Indo Farm Equipment Private Limited is a dream come true. The objective of starting the company was very simple - to get the tractor to the farmer. And how? By manufacturing farming tractors with outstanding performance at affordable prices. After a lot of research and analysis, we built a product that became the light bearer for us, all thanks to our team of experts. It is purely through their hard work and conviction that we are able to achieve our goals.

Once we saw the impact of our tractors in the agricultural sector, we wanted to do more. So we diversified our expertise in working towards creating Hydraulic Pick-n-Carry cranes to revolutionize the industrial, construction and mining sectors. Engines have always been our pride and we make them for generator sets to meet the global need for electricity that is ever-increasing.

We also have our own subsidiary, NBFC, Barota Finance, to make financing easy, hassle-free and quick for our esteemed customers.

We are confident that with the continued support and goodwill of our partners and business associates, we will deliver our best and grow exponentially in the years to come.

Our Mission

To offer high quality multi featured fuel-efficient agricultural, industrial and construction equipment at optimum cost and deliver world-class performance, backed by excellent after-sales service.

Our Vision

To be the most reliable, trustworthy and socially responsible agricultural and construction equipment manufacturer in the world.
